PT 109's encounter with IJN *Amagiri* on 1 Aug 1943 may be the most famous small-craft engagement in naval history. When asked how he had become a hero, Kennedy replied laconically, "It was involuntary. They sank my boat." JFK Presidential Library

COORDINATING INSTRUCTIONS:

1: A small group tour like this is designed around a “staff ride” concept, and as such is designed to insure maximum interaction of tour participants and the tour guide(s).

2: The tour is set up for 12 participants. It can expand up to 24, but that entails coordination for another tour guide, another vehicle and another boat plus an additional hotel. So it's 12 or less or 24 or less depending on actual number of participants. This tour is not a traditional battlefield tour. Having said that, there is no substitute for walking the terrain. Therefore there will be at a minimum moderate walking on the tour. Those unable to walk will remain with the safety vehicle and local security.

3: Participants should expect to be “in the field” for eight hours a day. Lunch is “on the run” to conserve time.

4: Breakfast is generally included in the cost of the lodging.

PRICING AND PAYMENTS: All tour costs and payments are handled through Military Historical Tours (MHT), 13198 Centerpointe Way, Suite 202, Woodbridge, VA 22193-5285 (703) 590-1295. They provide the breakdown for all tour aspects.

TOUR GUIDE DOES NOT ENGAGE IN FINANCIAL TRANSACTIONS OR AIR SCHEDULING.

LODGING: Hotel(s) will be selected long before departure and will be selected based on price and comfort.

MEDICAL: Obtain a clean bill of health from your doctor before embarkation day. Guadalcanal is not the place you want a medical emergency. The tour guides can only stop the bleeding and start the breathing, treat for shock and get you to the local hospital.

INSURANCE, REFUNDS AND CANCELLATIONS: Check with MHT.

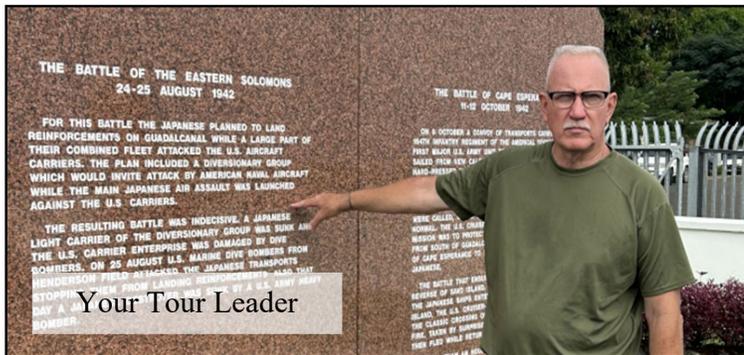

FORMAT: The tour is one tour designed for twelve participants, not twelve tours designed for one participant. Remember, you can always find a cheaper tour, but you can't find a better one, even if you pay three times the price.

POINT OF CONTACT (POC): Tour Guide, Joe Mueller (818) 815-8331; jnm21213@yahoo.com.

MHT patrons visit the M3 Stuart tank on Kohinggo Island. The 13,800 M3s built saw action extensively throughout all Allied operational theaters, from North Africa in 1942 to the Pacific in 1945.

The New Georgia Campaign was a series of land and naval battles fought in the Central Solomon Islands. It was part of OPERATION CARTWHEEL (the reduction of Rabaul). The New Georgia Campaign was a hard fought jungle war. The main fighting took place on New Georgia island itself, although significant actions also took place around the island chain throughout the campaign. Stubborn defense by the Japanese delayed the US advance on Munda and the Japanese mounted a strong counterattack before US force eventually captured Munda Point in early August. The campaign began on 30 June 1943, when US troops carried out landings in the Kula Gulf, in the north of New Georgia island, and around the Munda area on the western coast. In addition, smaller landings were undertaken at Viru Harbor on the southern coast of the island, Wickham Anchorage on Vangunu Island, and on Rendova. In the north, several actions were fought around Enogai and Bairoko throughout July, while in the west, the main US objective was the Japanese airfield on Munda Point.

COL Joe Mueller, USMC (Ret.) is one of the most knowledgeable subject matter expert on the New Georgial Campaign and has years of experience in the Solomon Islands. For 20+ years, he has been walking the battlefield, doing extensive research, and conducting interviews with campaign veterans of the campaign. His knowledge is not limited to history.

HIS PRIMARY CONCERN IS YOUR SAFETY!
